SUMMARY

Certified full-stack developer from UC Davis' Full-Stack Web Development Boot Camp with 10+ years of restaurant experience looking to transition into a web development career. Flexible employee that can improvise on the fly, minimize errors, and communicate clearly with team members in fast-paced environments.

TECHNICAL SKILLS

HTML, CSS, Javascript, Node, React, Express, Sequelize(SQL), NoSQL, React, MongoDB

PROJECTS

Movie App - *Deployed App - https://g07-movie-app.herokuapp.com/*
Github Link   -   https://github.com/jacobmcanepa/movie-app
- Web app that users can sign up/log into and have random movies suggested based on search criteria. These movies can be saved to a user profile and can be given comments and notes for other users to see.
- HTML, Handlebars, CSS, JS, Node.js, SQL, Sequelize, Express, Open AI

Music Market - Deployed App - *https://g02-music-market.herokuapp.com/*
Github Link   -   https://github.com/jacobmcanepa/music-market
- A mock e-commerce site where users can sign up/login to purchase songs. It features a functional cart and Stripe Payment API. After purchase, users can also view a purchase history.
- HTML, CSS, Javascript, MongoDB, Express.js, React, Node.js, GraphQL, JSON Web Tokens

Weather Dashboard: Deployed App - *https://wwartick.github.io/Weather-Dashboard/*
Github Link   -   https://github.com/wwartick/Weather-Dashboard
- A weather dashboard that displays current weather and a five day forecast for requested cities. Uses an openweather API to display the expected temperature, wind speeds, and humidity. Saves user searches with local storage.
- HTML, CSS, Javascript, Express.js, OpenWeather API.

EXPERIENCE

Restaurant Food Server   **2011-2022**
Buffalo Wild Wings, Sticky Rice Bistro, 260 Kitchen + Bar   **Fairfield, California**
- Communicated with customers, hosts, chefs, and bartenders to provide a pleasant dining experience.
- Multitasked several tables and guests to keep all patrons happy and cared for.
- Paid close attention to detail for customer orders to accommodate specific food preferences or allergies, and to avoid mistakes that result in wasted food or unsatisfied guests.
- Worked quickly in fast-paced and hectic environments for special events such as the Super Bowl, NBA Finals, retirement, graduation, and birthday parties for large groups of people.

EDUCATION

UC Davis Full Stack Web Development Bootcamp   **2022 - Davis, California**
24-week intense program focused on gaining technical programming skills for a full stack developer in HTML, CSS, Javascript, JQuery, Bootstrap, Node.js, MySQL, MongoDB, Express, Handelbars.js, SQL, NoSQL, React, and MongoDB
